

Labour Market Observatory of Lubelskie

Lubelskie Obserwatorium Rynku Pracy (LORP)

Policy Instrument

 Poland

Description

Country

Poland

Focus area

MAIN SKILLS
ASSESSMENT/ANTICIPATION
INITIATIVE

LORP was started as a project-based activity, initially financed by the Human Capital Operational Programme 2007-2013, dedicated to the support for Poviats and Voivodeship Offices of Employment in the area of implementation of tasks for professional activation of the unemployed in the region. It gradually developed its activities and is providing labour market research and analysis.

ADULTS WITH LOW BASIC
SKILLS

ADULTS IN EMPLOYMENT
WITH UPSKILLING POTENTIAL

ADULTS IN EMPLOYMENT
WITH RESKILLING POTENTIAL

EMPLOYED ADULTS AT RISK
OF JOB DISPLACEMENT

Sustainability

Success factors

Its main success is in filling the information gap, which no other unit does in the same or similar way in the region.

Barriers

The number of projects/publications depends on available funds.

Monitoring and evaluation

The observatory is part of the organisation structure of the regional PES. Monitoring and evaluation is conducted as part of specific research projects funded by EU funds.

Updates

YES

Updating of data is done regularly and new results are disseminated through research publications/reports

Effectiveness

Extensive demand for information on the labour market, expressed by universities at the Voivodship Labour Market Council, district labour offices, vocational counsellors, training institutions. Possibility of extending the originally planned scale of action

Sustainability

Yes, due to widespread demand and funding security
